EXPERIENCE

Snapchat Opinion Leader - Internship

May 2023 – Feb 2024

Under 25 Universe. [LOA](#)

Bangalore, Remote

- Responsible for building and nurturing the community of students interested in Augmented Reality content and experiences, as a part of the efforts of Snapchat India and Under 25, to support the AR ecosystem in campuses.
- A significant engagement, generating over 900 thousand views/impressions on Snapchat.
- **Skills:** Graphic Design · Leadership · Augmented Reality (AR) · Lens studio · Teamwork

Frontend Web Developer

Oct 2023 – Nov 2023

CodSoft [LOA](#)

off-site

- A beginner's landing page project in HTML and CSS fosters creativity and teaches the basics of web design, emphasizing alignment, styling, and user-friendly layouts.
- Creating a personal portfolio website involves sections for your header, about, skills, projects, resume, and contact information.
- A simple calculator using HTML, CSS, and JavaScript with an interactive interface for basic arithmetic operations

PROJECTS

E-Commerce website/ HTML, CSS, JavaScript, Vanilla JavaScript (API)

[link](#)

- For this project, I used HTML, CSS, and JavaScript to create an application with a collection of clothes and accessories.
- With Vanilla JavaScript, I learned how to dynamically display API data
- Users are able to add items to their cart and purchase them.
- Ensured seamless user experience and responsive design for the platform's front end, ensuring that businesses can easily store and analyze their data with minimal effort.

Personal Portfolio / HTML, CSS, JavaScript

[link](#)

- Developed a personal portfolio website using only vanilla / plain HTML, CSS, and JavaScript to showcase professional skills, projects, and achievements.
- Ensured the website was fully responsive, providing an optimal viewing experience across various devices, including desktops, tablets, and mobile phones.
